Allowable Subject Matter

Applicant's amendment of 04-29-04 has overcome the previous rejections of 112/1st and 2nd paragraphs by properly defining variables L²-L⁵, and by including "tautomer" in claim 1. It is recognized that the support for the "tautomer" of formula I comes from species of "thiazolo[4,5-d]pyrimidin-7(4H)-one". Thus, there is no new matter. The species in claim 6 have been divided, and recited in new claims 18-39, and thus, claim 6 is now in accordance with
